1000 Concentrated Cleaner and Degreaser

Rev.Date 12-8-04
page 1 of 2

General Description

DoradoKleen™ 1000 is a non-petroleum, solvent-based cleaner, to be used on painted and unpainted surfaces.

It is designed for use as for large structures or difficult-to-reach areas, where the increased contact time may be substituted for scrubbing. A dilution of up to nine-to-one with water has been found to be effective for light duty cleaning and degreasing.

Features and benefits

- Water Base, Non-flammable
- Clings to vertical surfaces.
- Safe on paint and Plexiglass™.
- Does not contain any hazardous ingredients, as defined by 29 CFR 1910, Subpart Z, or American Conference of Governmental and Industrial Hygienists (ACGIH).
- Safe on aluminum, magnesium, cad plate, and other structural metals, and does not hydrogen embrittle
- Surfactants and solvents are biodegradable.

Recommended Usage

- Equipment
- Engine Parts
- Machinery
- Wheels, Rims, Barbecues
- Factory and Warehouse floors
- Wheel Wells
- Garage and Concrete Floors

Product Data

- Viscosity: <200
- Appearance: Translucent Orange Liquid
- Specific Gravity: 1.0
- Boiling Point: >212°F
- Freezing Point: 32°F
- pH: 11.5 (concentrate)
- Flash Point: >212°F
- Theoretical Coverage: 50-500 sq. ft/gallon depending on dilution
- VOC: <10 g/L
- Shelf Life: 24 months

Safety requirements

Proper safety procedures should be followed at all times while handling this product. Refer to the Material Safety Data Sheet for important health/safety information before use.

Limits On Use

Surface temperatures should be between 32°F to 120°F

Typical Dilution Ratios

- *Light Duty Cleaning* –
1 part **1000**: 9 parts water
- *Medium Duty (Routine) Cleaning* –
1 part **1000**: 4 parts water
- *Heavy Duty Cleaning* -
1 part **1000**: 1 parts water

DoradoKleen™ 1000 may be used full strength with 30 minute contact time for hard to reach areas or to reduce or substitute for scrubbing.

Directions for use

- 1) **Test Area:** Always prepare a test area to determine product performance, coverage and applicable dilution ratios, as well as the suitability of product for the paint and the substrate.
- 2) **Mixing:** After appropriate dilution is determined by test patch, add the determined amount of **DoradoKleen™ 1000** to water and agitate.
- 3) **Dwell Time:** Allow product to dwell from 2-30 minutes, depending on amount of soiling and ability to agitate.
- 4) **Application & Removal:** Apply **DoradoKleen™ 1000** (diluted to the appropriate ratio) with mop, brush, or spray. Allow to remain on surface for up to 30 minutes; agitate the surface with a brush, and rinse with water. For best results, use a pressure washer.

Packaging

- 1 gal (3.8 L)
- 5 gal (19.0L)
- 55 gal (210 L)
