

## PRODUCT BULLETIN

---

### **ELDORADO HT-2243** NONCHLORINATED PAINT REMOVER

**ELDORADO HT-2243** is an alkaline, amine-activated, liquid paint and carbonaceous soil remover, for use immersion tanks for cleaning aircraft parts, and for stripping resistant paint films from metal surfaces.

#### PROPERTIES

1. Incorporates an oil upper layer to reduce evaporation loss.
2. Effective for removal of chemically resistant aircraft paint films.
3. Contains no free hydroxides, chlorinated solvents, chromates, or phenols.
4. Surfactants are biodegradable.
5. Safe on steel, aluminum, titanium, magnesium, and other structural metals.

#### USE

**HT-2243** is used in mild, steel equipment as received, at 170° -210° F. Immerse parts to be stripped in the **HT-2243** lower layer for 30 minutes to 2 hours, as required, for complete removal. Solvent loss and odors may be reduced by a water-cooling coil around the top lip of the tank. Parts may be rinsed with water or petroleum solvent. Pressure water spray rinse is recommended. Use lowest temperature, which will successfully remove the paint or soil from parts to reduce solvent loss.

#### PRECAUTIONS

Avoid skin and eye contact through the use of face shield and protective rubber clothing. **HT-2243** contains amines, which may cause allergic reactions. Provide adequate ventilation.

Avoid contamination of **HT-2243** with water.
