# **ELDORADO HTP-1150L**

## ALKALINE RUST REMOVER

**ELDORADO HTP-1150L** is a liquid, water-dilutable, hot-tank cleaner and rust and paint remover, for use on steel and ferrous alloy parts.

### **PROPERTIES**

1. Clear liquid.
2. Contains potassium and sodium hydroxides.
3. Effective for removal of oxides from iron, nickel, chrome, and cobalt alloys.
4. Contains no phenols, chlorinated solvents, or heavy metals.
5. When used on aluminum and titanium, plasma coatings, or soft metals, procedures must be in conformance to engineering restrictions on time, temperature, and concentration to avoid damage to parts.
6. Approved by General Electric, Rolls-Royce, Pratt & Whitney and Turbomeca Engine main factories.
7. Applicable specifications: T.O. 2-1-111  
AMS 1379

### **USE**

**HTP-1150L** may be used at a dilution of 20% to 60%, at 170°-190°F, in mild steel equipment. A 50% solution is equivalent to 3 pounds per gallon **HTP-1150L** powder.

Immerse parts for 30 minutes to 2 hours, then rinse with water. A pressure-spray rinse is preferred to dislodge softened paint. **HTP-1150L** may also be used as a cold soak bleaching cleaner, barrel finishing and electro soak cleaner. Consult your Eldorado Technical Service Representative for more information.

### **PRECAUTIONS**

Contains sodium hydroxide. Avoid contact with eyes and skin, through use of goggles, chemical resistant gloves and aprons. Consult MSDS for further details.
