## NONCHLORINATED POLYURETHANE REMOVER

*ELDORADO PR-3131* is a viscous, alkaline paint remover designed for removal of polyurethane coatings from metal surfaces.

### PROPERTIES

1. Viscous, alkaline solvent, which may be applied to vertical, inclined, or overhead surfaces.
2. Safe on aluminum, magnesium steel, high-strength steel, and other structural metals;
3. Powerful – very effectively removes (bond releases) paint films;
4. Nonflammable;
5. Free-Rinsing, minimal paint residues remain on surface;
6. Contains no phenols, chromates, heavy metals, or chlorinated solvents
7. Approved by or conforms to: T.O. 1-1-8, DPM 5619, AMS 1376A

### USE

*PR-3131* is ready for use, as supplied. Surface must be clean and free of water. Apply to coating by spray, mop, or brush. Keep the surface wet until paint is blistered and loose from the surface. May require 16 hours contact time. Squeegee or wipe material from the surface, or agitate loosened residue with brushing, and wipe clean. Should residues remain, they are readily removed with cleaners.

### PRECAUTIONS

Do not use in confined spaces. Use with adequate ventilation. When *PR-3131* is sprayed an activated carbon filter or fresh air supply mask must be worn. Avoid all skin contact through the use of face shield and rubber clothing. Wash hands and face after use of *PR-3131*. Material Safety Data Sheet should be consulted for more information on product use safety.
