

PRODUCT BULLETIN

ELDORADO PT-162 LIQUID TOILET DEODORANT

ELDORADO PT-162 is an intensely blue, heavy-duty, liquid toilet deodorant for use in aircraft, buses, and trains to control corrosion, bacteria, and odor. **PT-162** is specifically designed for use where long-time intervals are required between changeovers of solution. The blue color may be used as a guide for controlling odors and objectionable color. **PT-162** is buffered to reduce corrosion and contains no heavy metals or phenols. It's also safe on all materials commonly used in chemical and portable toilets and refuse handling equipment.

PT-162 is available in a variety of convenient aircraft cleaning forms – liquid, powder and tablets, and is packaged in "Industry Standard" packaging, such as totes, drums, quarts, sleeves and dissolvable packets. **PT-162** is also available in multiple fragrances which helps overcome "Fragrance Fatigue" - the phenomenon that occurs when one smells the same fragrance for long periods of time.

PROPERTIES

1. Powerful concentrate
2. Nonflammable
3. Produces a long-lasting fragrance
4. Biodegradable
5. Contains no formaldehyde or quaternary ammonium compounds.
6. Approved by or conforms to: AMS 1476A, Air Canada

USE

ELDORADO PT-162 must be diluted for use. Add 1/5 to 1/4 ounce per gallon to water (or meter 1 part **PT-162** with 640 to 512 parts water) in the aircraft supply tank. This will produce a dark-blue color. If needed, on longer trips, add additional **PT-162** to maintain a blue color and mask odors.

PRECAUTIONS

Do not take internally. Avoid skin contact. Wash with soap and water in case of skin contact.
