ELDORADO SR-145

NONCHLORINATED POLYSULFIDE SEALANT/PRIMER REMOVER

ELDORADO SR-145 is a viscous, sealant remover, designed for removal of polysulfide sealants and adhesives from metal surfaces. **ELDORADO SR-145** has a very low vapor pressure, and, therefore, evaporates slowly.

PROPERTIES

1. Viscous solvent which may be applied to vertical, inclined, or overhead surfaces.
2. Safe on aluminum, magnesium, steel, high-strength steel, and other structural metals.
3. Powerful: very effectively dissolves and removes polysulfide sealant and adhesives.
4. Nonflammable: flash point above 200°F.
5. Free-rinsing: minimal sealant residues remain on surface.
6. Contains no phenols, chromates, or heavy metals.
7. NESHAPS – Compliant with
8. Approved by or conforms to: T.O. 1-1-8, Grumman, TinkerAFB Purchase Description

USE

ELDORADO SR-145 is ready for use, as supplied. Surface must be clean and free of water. Apply to coating by spray, mop, or brush. Reapply as required to prevent drying (three hours or more). Squeegee or wipe material from the surface, or agitate loosened residue with brushing, and wipe clean. Should residues remain, they are readily removed with cleaners or wipe solvents.

PRECAUTIONS

Do not use in confined spaces. Use with adequate ventilation. When **ELDORADO SR-145** is sprayed, an organic vapor cartridge mask is required. Avoid all skin contact through the use of a face shield and rubber clothing. Wash hands and face after use of **ELDORADO SR-145**. Material Safety Data Sheet should be consulted for more information on product use safety.
